# Tigers

Tigers live in the jungles and grasslands of Asia.

They are orange and black. They have got big feet and a long tail. They eat meat and fish. They are very strong. They can run very quickly and they can climb trees too. They like the sun and sometimes when it is hot they swim in the river. Tigers form part of the family of Big Cats. There are some tigers that live in the mountains in Russia. They aren't orange, they are white but they are in danger of extinction.

I think tigers are beautiful. They are my favourite animal at the zoo.

Read the text and complete the table about tigers.

## Reading and writing 2

Rory Lyons is a zookeeper. He looks after the big cats at the zoo. He gets up at half past six every morning and drives his car to work. He has breakfast at the zoo café with some of the other workers. He has some bacon and eggs and a cup of tea.

First he checks all the animals and then he starts preparing their lunch. Some days they have chicken and sometimes they have other meat, like rabbit. They all need vitamin supplements too.

In the afternoon he cleans the cages. He writes down in his notebook how much each animal has eaten because he doesn't want fat lions or thin tigers! Sometimes the animals can get ill, so he needs to call the vet and help them to get better. He finishes work at four o' clock and drives back home.

In the evening he goes swimming two days a week and does some exercises in the gym. He has dinner at eight o' clock and later sits down on the sofa to watch TV. His favourite programmes are animal documentaries.

He goes to bed at eleven o' clock- he's tired but he's happy because he loves his job.
