What food do you like?

It is important to eat different types of food. Fruit and vegetables give us vitamins and minerals. Remember to eat five pieces of your favourite fruit and vegetables each day. Products with a lot of sugar are not good. Cakes and sweets are delicious, but eat only one or two per week!

Hamburgers, chips, pizza and nuggets can make you fat. Don't eat too many! Milk, yogurt and cheese are good for children. Bread, cereals, rice and pasta give us energy. Fish, meat and eggs are necessary too.
